

The Youth Mental Health Crisis: Building Capacity through Innovation & Collaboration in Schools

A VIRTUAL FORUM

Tuesday, April 11, Noon to 1:15 CDT

The Partnership for a Connected Illinois (PCI) has been awarded a grant to plan a pilot of a system to supplement existing behavioral health services to K-12 students. The pilot would expand telebehavioral health services within each tier of a public health model, providing access to self-help resources for parents and students, online behavioral health tools (e.g. skill-building coaches, moderated peer support groups, 1:1 asynchronous chatting), teletherapy, and care coordination. PCI will launch at least 2 pilots in September 2023 and several additional pilots in January 2024.

Host:

Loyola University

Speakers:

Brenda Huber, Ph.S., ABPP, Chief Executive Officer, Doc-B

Dr. Brenda Huber is an experienced leader and systems consultant with a demonstrated history of working in higher education and multiple child-serving sectors (i.e., schools, healthcare, juvenile court, community mental health, child welfare).

Terry Murphy, Adjunct Faculty, Cornell University; Executive-in-Residence: Digital Innovation in Healthcare, Cornell University.

Terry Murphy is CEO of Edgehealth LLC and co-chairs the Digital Health Selection Committee for ACHRM, an employer health coalition. He teaches Digital Health and Disruptive Innovation in Cornell's Sloan executive MHS program.

A third speaker TBA
