

The Youth Mental Health Crisis: Innovative Opportunities in Schools

A VIRTUAL FORUM

Wednesday, June 3, Noon to 1:30 CST

Surging mental health demand among youth and a chronic clinician shortage has led to innovative solutions in schools. Since 2023, the Partnership for a Connected Illinois (PCI) has piloted Tier I and Tier II digital mental health resources in 28 Illinois K12 schools to supplement the work of on-site school-based mental health professionals. This webinar is the fourth in a series, providing insights on vendors and updates on results of those pilots. This session will feature school district personnel from three schools using different digital mental health resources/vendors to share their results and advice. This 90m session will wrap up with participant Q&A.

Host:

Upper Midwest Telehealth Resource Center

Speakers:

Terry Murphy, CEO, Edgehealth, LLC; Adjunct Faculty, Cornell University, Digital Innovation in Healthcare

Terry Murphy is CEO of Edgehealth LLC and co-chairs the Digital Health Selection Committee for ACHRM, an employer health coalition. He teaches Digital Health and Disruptive Innovation in Cornell's Sloan executive MHS program.

Brenda Huber, Ph.S., ABPP, Chief Executive Officer, Doc-B, mPLCC; Chair of School of Psychology Dept. The Chicago School

Dr. Brenda Huber, Chair of School Psychology at The Chicago School, draws on expertise in child-serving sectors (i.e., schools, healthcare, juvenile court, community mental health, child welfare) to provide consultation to communities engaging in collaborative and innovative solutions to children's mental health needs.
