

The Ins and Outs of Remote Patient Monitoring Economics, Billing and Compliance

A VIRTUAL FORUM

Wednesday: November 13, 1:00 pm CT

Tune in to this November 13 online forum of the Illinois Telehealth Initiative of the Partnership for a Connected Illinois (PCI) for insights on the economics and structuring of remote patient programs across payment models. This will be the second session of PCI's series on remote patient monitoring, following up on the [August 21 webinar](#).

Topics:

- ◆ Billing principles for remote physiologic monitoring (RPM) and remote therapeutic monitoring (RTM)
- ◆ Net revenue analysis for remote patient monitoring programs
- ◆ How remote patient monitoring can improve value-based care and readmission results
- ◆ Overview of key remote patient monitoring compliance issues
- ◆ Keys to structuring collaborative remote patient monitoring relationships
- ◆ Coordination of remote patient monitoring and other care management services

Speakers:

- ◆ Bernie Benassa, Senior Director, Virtual Care Solutions, CareSimple
- ◆ Matt Drew, CEO, Alpha Omega Health
- ◆ Donna McHale, Principal, Digital-Healthcare Technology Services, Huron
- ◆ Rick Hindmand, attorney, McDonald Hopkins LLC
- ◆ Maureen Hydok, Senior Director, Huron Healthcare Technology Services, Huron
- ◆ Michael Sisti, Administrative Director Value Based Care Managed Care, Silver Cross Hospital
